Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Amendment

This action is in response to the request for reconsideration file don 7/25/05.

As per applicant's request claims 1-10, 30-40 and 43 have been considered but they are not persuasive.

Claims 1-10, 30-40 and 43 stand rejected under 35 USC 102(e) as being unpatentable over *Moore et al* USPN 6,349,404.

In the remarks applicant argues,

I) "Identifying and modeling one or more business processes with one or more steps to each business process and identifying data relating to each step".

II) "Designing and creating at least one database for storing data database being shared by software service".

III) "Initiation, visualization, specification, design and implementation".

In response to applicant's arguments,

I) It was noted that cited reference fairly suggests identifying and modeling one or more business processes with one or more steps to each business process and identifying data relating to each step as figure 3 depicts in detail by creating new business process by using modeling approach as business objects column 4 lines 21-47 supports that. Cited reference also suggest that there is a strong relationship between business process and data is depicted on column 7, lines 23-39 representing that there is relationship 1 to many etc. as it always created in data modeling. Thus limitations are met by the reference.

Art Unit: 2193

II) It was also noted that reference also suggest designing and creating database for storing purpose which can be shared (figures 1 and 4) depict that reference has mentioned about storing data which can be shared (see column 5, lines 32-36).

III) Cited reference also suggest (see figures 3-6) in form of use case diagram which implies that use is initiating the process of creating a new application as business process demands and providing detail specifications for each business object has been created in the model as figure 4 representing therefore, each business process an be visualized in modeled formed before its get implemented as shown in figure 6. Therefore, limitations are by the reference.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
